Subject Supporting the First Amendment!

Hi, Michael,

I've been watching your situation regarding the challenges to the young adult gay-themed books. I'm sure this is a challenging time for you and your staff.

I just want to be sure you know that there are many of us out here who support the library in defending the First Amendment. I know the ACLU, the CCBC, and the UW Milwaukee SOIS have been providing support. I hope you all get through this OK.

Just sending moral support as you fight the good fight. Good luck.
