Subject: West Bend Citizens for Free Speech News-Sign the Petition

Dear Community Members:

As you may or may not know, I have been publicly speaking out against the library complaint and petition that has been circulated by Ginny and Jim Maziarka. I believe their requests to reclassify or move books in the collection are attempts at censorship.

I have started my own petition and invite you to visit my website <http://westbendparentsforreespeech.webs.com/> to access either a downloadable petition you can print and collect signatures with, or an online petition you can sign and forward the URL to other citizens. (Please sign only one petition. The petitions should only be signed by users of the West Bend library, but this can include patrons who use the library through the shared libraries system/live within the county.) We will likely have the petition available to sign at a local spot, such as one of the library meeting rooms, soon. If you can help promote the petition in any way, we need all the help we can get, so please contact me about how you can help.

If you have been concerned about the Maziarkas' complaint, please visit my site and consider signing the petition to protect the library's collection at attempts at censorship.

Thank you, and please contact me if you have any questions!

Maria Hanrahan
